DETAILED ACTION

1. This Office Action is the answer to the amendment filed on 8/18/2006.

Status of the claims

2. Claims 8-25 are currently pending.

Drawings

3. Six sheets of formal drawings filed on 12/12/2005 were acceptable by the examiner.

Allowable Subject Matter & Reasons for Allowance

4. Independent claims 8, and 18 are not obvious over a closest reference of Von Alten (US Pat. 6,873,840), because he does not anticipate nor fairly and reasonably teach a system, and a method for managing a fleet of rental vehicles by electronically exchanging information remotely, besides other limitations, comprising:

- returning a rental vehicle by confirming the usage of gas, and paying the usage of the rental vehicle ("*current fuel level on vehicle, other vehicle diagnostics information such as fluid levels of brake oil, engine oil, transmission oil, and coolant, (4) payment information including credit card number, authorization information, expiration date, and (5) other information as needed by the rental car facility or as requested by the customer such as destination address, today's plan, special POI (point of interest... and payment transactions are conducted automatically based on the stored information in the navigation system*").

Von Alten suggests about sending data relating to the usage of the rental vehicle to a rental facility computer for calculating a rental fee; but does not disclose about transmitting a confirmation of data relating to above usage of the rental vehicle.
